EDUCATION

Vanderbilt University – College of Connected Computing

Master of Science in Data Science

Nashville, TN

August 2026 – May 2027

Davidson College – Center of Interdisciplinary Studies

Bachelor of Science in Data Science (GPA: 3.91/4.0)

Davidson, NC

August 2024 – May 2026

Major: Data Science

- Awards and/or Honors: Magna Cum Laude, Omicron Delta Kappa Honors Society (1 of 8 juniors awarded), ASA Data Fest 2025 Best Insight Award
- Relevant Coursework: Programming & Problem Solving, Data Science & Society, Data Structures, Database Programming, Human Computer Interaction, Calculus II, Capstone, Data Visualization, Linear Algebra
- Clubs & Activities: Embedded Tutor, Data CATS Consultant, Women in Computer Science Treasurer, Diversity in Science and Computation (DISC), Quiz Center Student Assistant, Women in Business, Warner Hall Eating House, Club Pickleball

Birmingham-Southern College

Major: Business and Finance (GPA: 3.98/4.0)

Birmingham, AL

August 2022 – May 2024

- Awards and/or Honors: Omicron Delta Kappa Honors Society (only sophomore awarded), Mortar Board Honors Society (1 of 3 sophomores awarded), Dean's List, Pi Beta Phi Fraternity Silver Slipper Award
- Relevant Coursework: Foundations of Business & Thought, Criminal Law, Financial Accounting, Principles of Microeconomics, Principles of Macroeconomics, Calculus I, Principles of Management
- Clubs & Activities: Pi Beta Phi Alabama Alpha Chapter Vice President of Finance and Housing & Director of Member Conduct, Academic Resource Center Peer Tutor, Honor Council Representative, Quest 2 Director of Campus Life, Bonner Leadership Program, Harrison Honors Program, Women in Business, Religious Life, Active Minds Treasurer, Stump Entrepreneurship Representative

SKILLS

Relevant Skills: Data Analysis, Data Visualization, Data Mining, Data Engineering, Data Modeling, Data Warehousing

Programming & Tools: SQL, R, Python, Java, Fabric, Power BI, Excel, PostgreSQL, SQLAlchemy, Pandas, NumPy, dplyr, tidyverse, Git/GitHub, d3.js, JSON

EXPERIENCE

Vanderbilt University

Data Architect Intern

Nashville, TN

August 2026 – Present

- Working 10 hours per week (hybrid) supporting university data architecture initiatives through data modeling, SQL development, and data documentation across Snowflake and Oracle Cloud platforms. Contribute to data cataloging, governance, and quality initiatives while translating business requirements into technical solutions and using AI/LLM tools to improve SQL development, modeling, documentation, and analytical workflows.

Covenant Technology Partners

Part-Time Associate Consultant

St. Louis, MO

August 2026 – Present

- Working 10 hours per week (remote) supporting Microsoft 365 managed services and Data & AI consulting initiatives, including data preparation, Power BI reporting, analytics, and process documentation.

Data & Analytics Intern

May 2026 – August 2026

- Completed an 11-week remote internship (40hrs/week), supporting client and internal data analytics initiatives by migrating Power BI assets across enterprise environments, validating business-critical reporting data, tracing data to source systems, and developing migration documentation and tracking artifacts. Designed Microsoft Fabric and Power BI solutions, including data flows and semantic models, and developed a multi-domain analytics showcase using medallion architecture and executive-focused reporting.

Nashville State Community College

Research Analyst Intern – Office of Strategic Analytics & Planning

Nashville, TN

January 2026

- Completed a 2-week in-person internship (28hrs/week), collaborating with faculty, staff, and external partners to assess data needs and deliver actionable solutions. Extracted and managed data using SQL, Excel, and Power Query and developed Power BI dashboards to visualize insights, presenting results professionally to the college community on Survey of All Students data.

Dollar General

Goodlettsville, TN

Digital Commerce Intern

May 2025 – August 2025

- Completed an 11-week hybrid internship (40hrs/week), managing product assortment and availability across digital fulfillment channels, collaborating with cross-functional teams to optimize product listings and track KPIs for marketing initiatives. Improved Dollar General's delivery program by lowering cancellation rates from 27% to 17% and reduced Popshelf Pick-Up expired orders from 180 to 70 per week, significantly enhancing operational efficiency.

Davidson College

Davidson, NC

Data CATS Consultant

August 2025 – May 2026

- Supported data related projects for Davidson College students and faculty at any stage, rapidly adapting to unpredictable client needs and applying coding, software, and analytical skills to academic and real-world data challenges.

Embedded Tutor

January 2025 – May 2026

- Peer tutor for CSC110: Data Science and Society and DAT153: Database Programming (8hrs/week), providing one-on-one and group tutoring and communicating student challenges to the professor.

Student Assistant

August 2024 – December 2024

- Proctored exams for students enrolled in STEM courses and maintained a secure testing environment for 6 hours per week.

Birmingham-Southern College

Birmingham, AL

Academic Resource Center Tutor

January 2024 – May 2024

- Tutored students (10hrs/week) in Calculus, Sociology, Psychology, and Business courses.

Hillwood Country Club

Nashville, TN

Head Dive Coach

May 2023 – July 2023

- Served as the head dive coach (20hrs/week) for a competitive summer dive team (ages 4-18) coaching athletes, communicating with parents, hosting and coordinating meets, completing entry paperwork, and judging competitions.

Seven Hills Swim & Tennis Club

Nashville, TN

Assistant Dive Coach

June 2017 – July 2023

- Served as an assistant dive coach (25 hrs/week) for Nashville's largest competitive summer dive team (ages 4-18); part of an 13-time consecutive Nashville Dive League City Meet championship program. Recipient of the Hillary Lane parks Sportsmanship Award for exemplary service to the Nashville dive community.

PROJECTS

Vanderbilt University – Physician Specialty Fingerprinting Capstone | Preverity, a Sentact Company

August 2026 – Present

- Analyze large-scale medical billing and claims data, including CPT procedures, diagnosis codes, and prescription records, to identify physician specialty patterns.
- Develop reproducible SQL and Python workflows to evaluate a cosine-similarity-based algorithm for classifying physicians based on billing patterns.
- Evaluate classification performance using AUC and Cohen's d while benchmarking the algorithm against legacy Population Stability Index (PSI) methods and investigating uncertain cases.
- Design an interactive data science product that translates classification results, confidence scores, and supporting evidence into actionable insights for healthcare underwriters and actuaries.

Davidson College – GPR Data Analysis Capstone

August 2025 – December 2025

- Developed an open-source Python tool to process Ground Penetrating Radar data, providing a free alternative to proprietary software for non-technical users.
- Built an end-to-end pipeline transforming raw radar files into structured 3D datasets for visualization in ParaView.
- Applied signal processing techniques (filtering, gain adjustment, velocity modeling, migration) to analyze real-world geospatial data from a cemetery survey.
- Created 3D visualizations identifying patterns consistent with potential unmarked burial sites.
